

TECHNICAL DETAILS

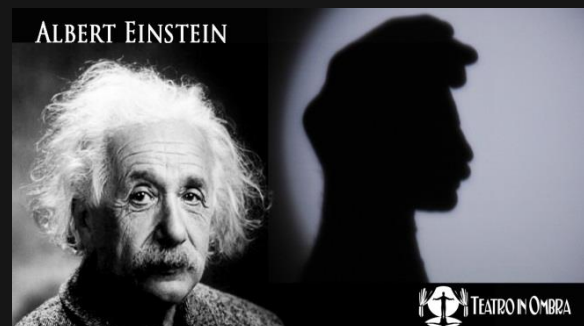

All the variety, all the charm, all the beauty of life is made up of light and shadow.

Lev Tolstoj, Anna Karenina

The Show

Theater, locals and convention

The artists have two distinct performances of the base term of 15:00 minutes, in which the audience is involved in a dreamlike journey, that go through several areas of the world, from music to politic, from art to science, bringing audiences into contact with various personalities that are either past or recent as Freddie Mercury, Miley Cyrus, Obama, Putin, John Lennon and many other!

Television programs

The show proposed to television networks could last the same time than the previous section, or it is necessary a shorter time the minimum time lasts 2.00 minutes.

Kids

The kids show could be performed by both artists or just by one and lasts 10.00 minutes.

Children will meet up close many shadow puppets, from the most notorious to the most particulars, like the cat, the camel, the elephant, the owl and the inevitable rabbit!

According to the age of the young audience the show may contain also some television heroes, as like superheroes or the now famous Harry Potter!

Technical requirements

For the proper implementation of the show it's required the following technical support:

Projection screen

Minimum size 1.80x1.80 m with adjustable height.

Extention cord

Classical socket 220 V (at least one socket).

The total area required is approximately 3.00x3.00 m.

The minimum distance between the projector and the screen is m 2.30.

In case of location with the screen of magnitude higher than that indicated above the projection distance will increase in proportion.

The space between the projector and the screen must be left free to allow better development performance.

The technical requirements mentioned above are to be intended particularly for location requiring air travel or by train for artists, differently they will provide on their own to be fitted with all the material.
